MESSAGE FROM THE PRESIDENT

Dear friends and allies:

It is known to all that these last two years have been years of challenges and learning, years in which globally, we had to change and adapt our lives and learned to renew our health and life.

We would like to share with you that during the last year of the still physical withdrawal, our staff was always involved and creatively engaged in reinforcing the care and reaffirming the bonds with all our girls and adolescents, maintaining a hopeful contact that gave them the certainty that they would be well and that at Casa Hogar Santa Julia we could continue with our normal activities as much as possible.

All of the above would not have been possible without you, thank you very much for continuing to be by our side and by the side of our girls and adolescents!

TEMPORARY HOUSING PROJECT FOR SIBLINGS

At Casa Hogar Santa Julia don Bosco, A.C., we have dedicated ourselves to house girls and teenagers since 1959, and throughout this time we have witnessed a number of psychological situations in which our girls and teenagers find it very difficult to live.

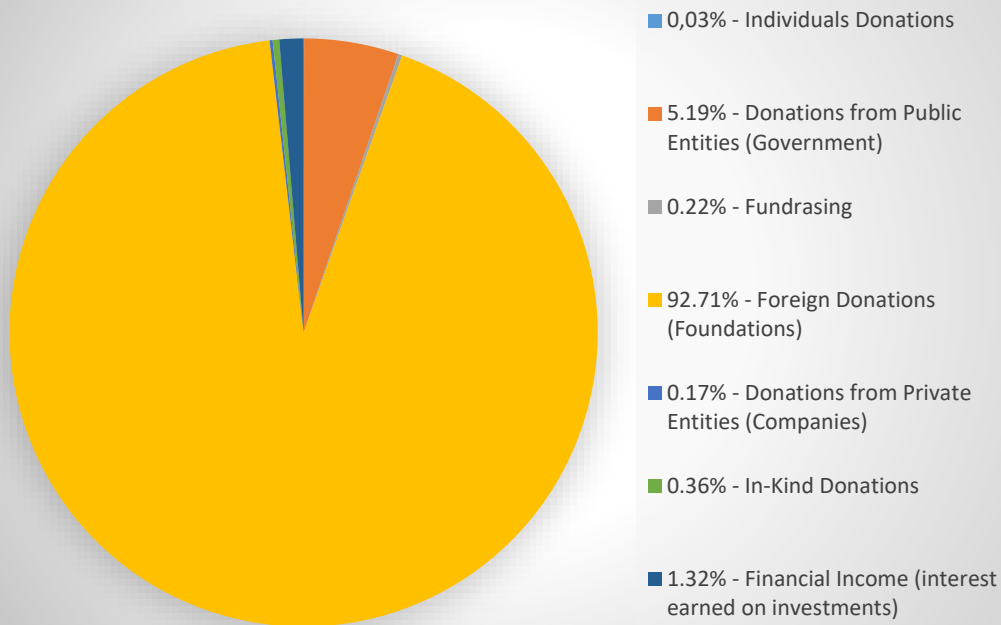

One of the most notable and worrying is the separation of siblings, as we have had several cases in which we are the first shelter for girls and teenagers who not only go through this situation, but also have been separated from their home, arrive at the shelter and at the same time are separated from their sibling(s).

We at Casa Hogar Santa Julia believed that it was our ethical and human duty to offer temporary housing for the brothers (between 3 and 8 years old) of the girls and teenagers who are safeguarded with us. That is why, in June 2021, we implemented the project "**Temporary housing for male siblings**".
